## Profile

My name is Magnus Hansen. I am a happy, smiling, and accommodating 25-year-old young man and am extremely passionate about almost anything related to technology. I am 100% self-taught, which means I currently do not have any documentation for my skills. Therefore, I am very willing to take on all types of tasks where I can prove my willingness and abilities. I am very quick to learn and have an excellent ability to retain the knowledge I acquire. Take a look at my website for a better insight.
